

## Dialogic® Brooktrout® Implementation Professional Services

Communication environments can be complex, and integrating and deploying solutions can be a challenge. Dialogic's Brooktrout Implementation Professional Services provides assistance with installation, integration, and validation for fax servers using Dialogic® Brooktrout® SR140 Fax Software. The Services are performed remotely by a Dialogic Support engineer with extensive knowledge on Brooktrout SR140, as well as TDM and VoIP environments.

The Services include:

- Assigned Service Engineer for implementation project
- Kick-off meeting to discuss different aspects of the deployment
- Site survey review
- Installation and commissioning
- Integration assistance with third-party network components

The Services encompass eight (8) total hours; however, additional service time can be purchase as needed, in four (4) hour increments.
